PrimeSign

Through *PrimeSign* to a bank account in minutes!

The Basis

- ✗ **PrimeSign** is the innovative and most easy-to-use application for signing and creating authentic electronic documents according to international laws.
- ✗ **PrimeSign** is a 100% web-application and does not require any particle of locally installed software. Thus it can be easily deployed in organizations and it can be easily integrated in web-flows.
- ✗ **PrimeSign** supports several signature creation devices including mobile phones, smart-cards, software certificates,...
- ✗ **PrimeSign** supports visible signatures as defined in PAdES part5. Just use PrimeSign in your browser and place your electronic „stamp“ in your document per drag & drop: provide readers of your documents a familiar sign of evidence that it was you who created this document.

References

We are proud to have significant organizations of the public administration as reference customers of [✕ PrimeSign](#)

Just to name two of them:

[✕ PrimeSign](#) @ Austrian Federal Chancellery:

- By using [✕ PrimeSign](#) all employees of the Federal Chancellery are able to easily sign electronic documents lawfully within the Austrian electronic dossier system (i.e. a web-flow based DMS).

[✕ PrimeSign](#) @ Principality of Liechtenstein :

- The Principality of Liechtenstein uses [✕ PrimeSign](#) as the internal application for applying electronic signatures to their documents (e.g. signing scans, automatically signing of notifications, signing of arbitrary documents by using our Web-App).

Customers Feedback

Feedback:

- *PrimeSign is the most easy-to-use application for creating qualified electronic signatures.*
- *Due to the fact that no local software is needed, PrimeSign perfectly suits the needs of large organizations.*
- *Thanks to the seamless integration of PrimeSign in workflow systems (DMS etc.) the creation of authentic and lawful documents becomes very effective.*

Opening an Account using *PrimeSign* and STORK

Today: Through Registered Letters or Personal Registration

Disadvantages:

- it takes **several days** due to
 - time for postal delivery,
 - creating scans,
 - etc.
- it has a **drop-out-rate over about 70%!**
 - customer does not pick up the letter
 - customer does not send the scan of her passport
 - customer does not send the signed contract,
 - etc.
- it is usually bound to **business days:**
 - no 7x24
 - not on weekends
- it is **not pure online and direct**
 - media breaks
 - internal procedures are not efficient

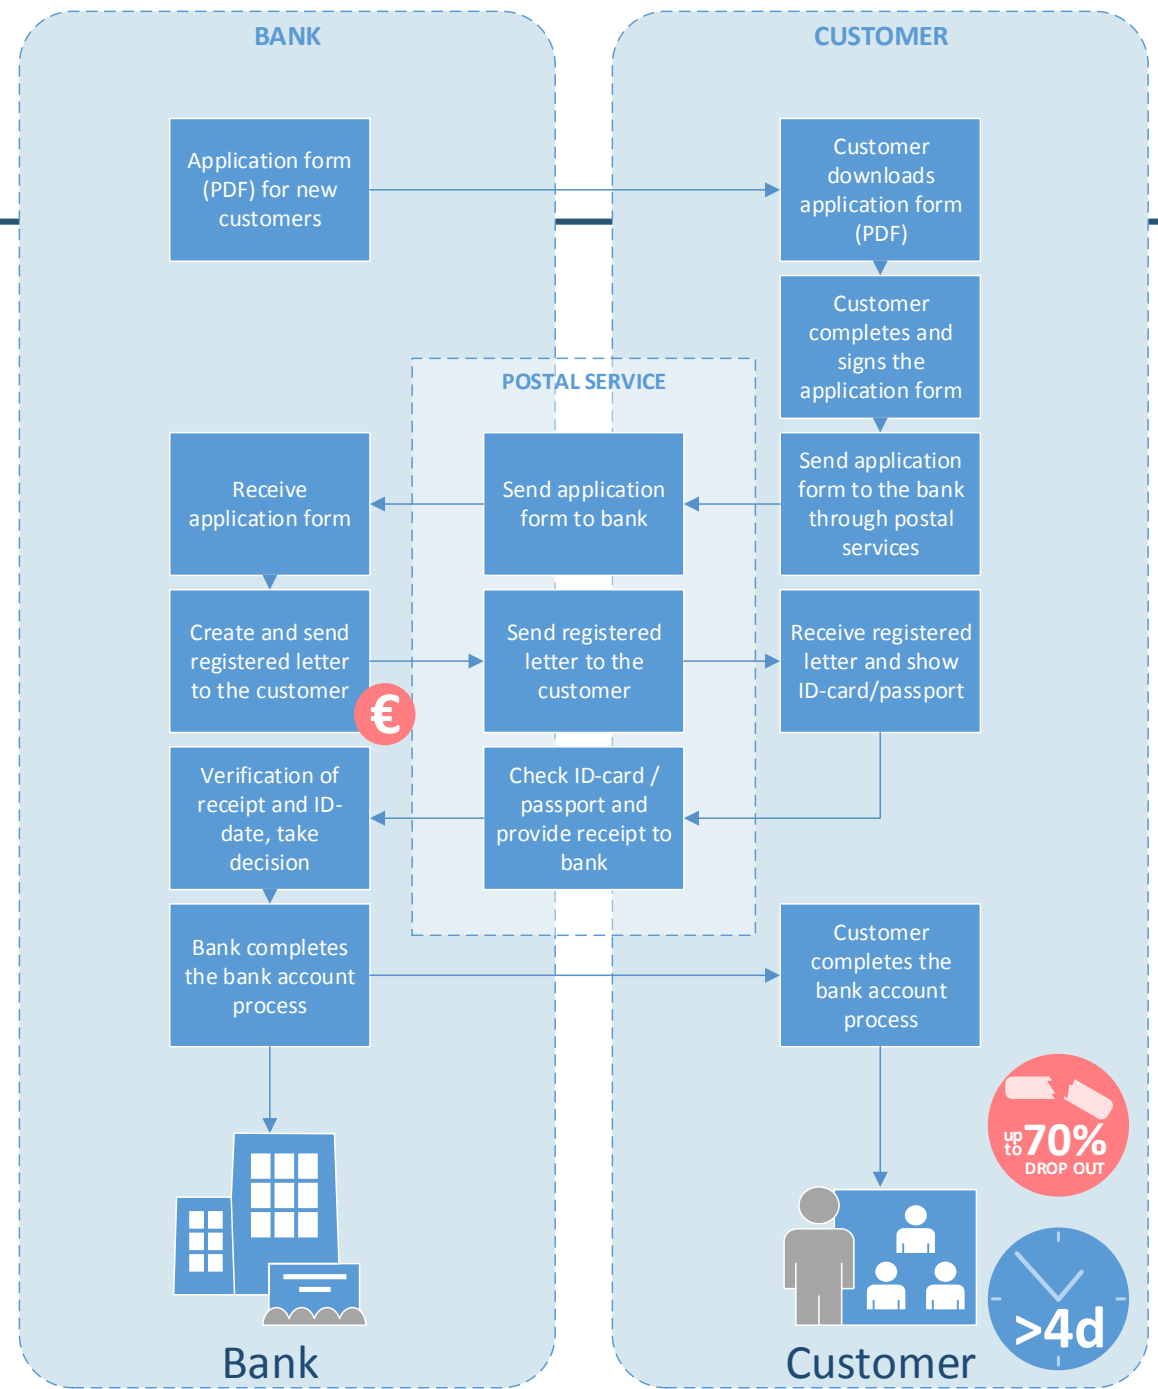

BUSINESS DAYS						
M	T	W	T	F	S	S
31	1	2	3	4	5	6
7	8	9	10	11	12	13
14	15	16	17	18	19	20
21	22	23	24	25	26	27
28	29	30	1	2	3	4

Today: E.g. through Registered Letters

Disadvantages:

- it takes **several days** due to
 - time for postal delivery,
 - creating scans,
 - etc.
- it has a **drop-out-rate over about 70%!**
 - customer does not pick up the letter
 - customer does not send the scan of her passport
 - customer does not send the signed contract,
 - etc.
- it is usually bound to **business days:**
 - no 7x24
 - not on weekends
- it is **not pure online and direct**
 - media breaks
 - internal procedures are not efficient

EXAMPLE:

With STORK and PrimeSign

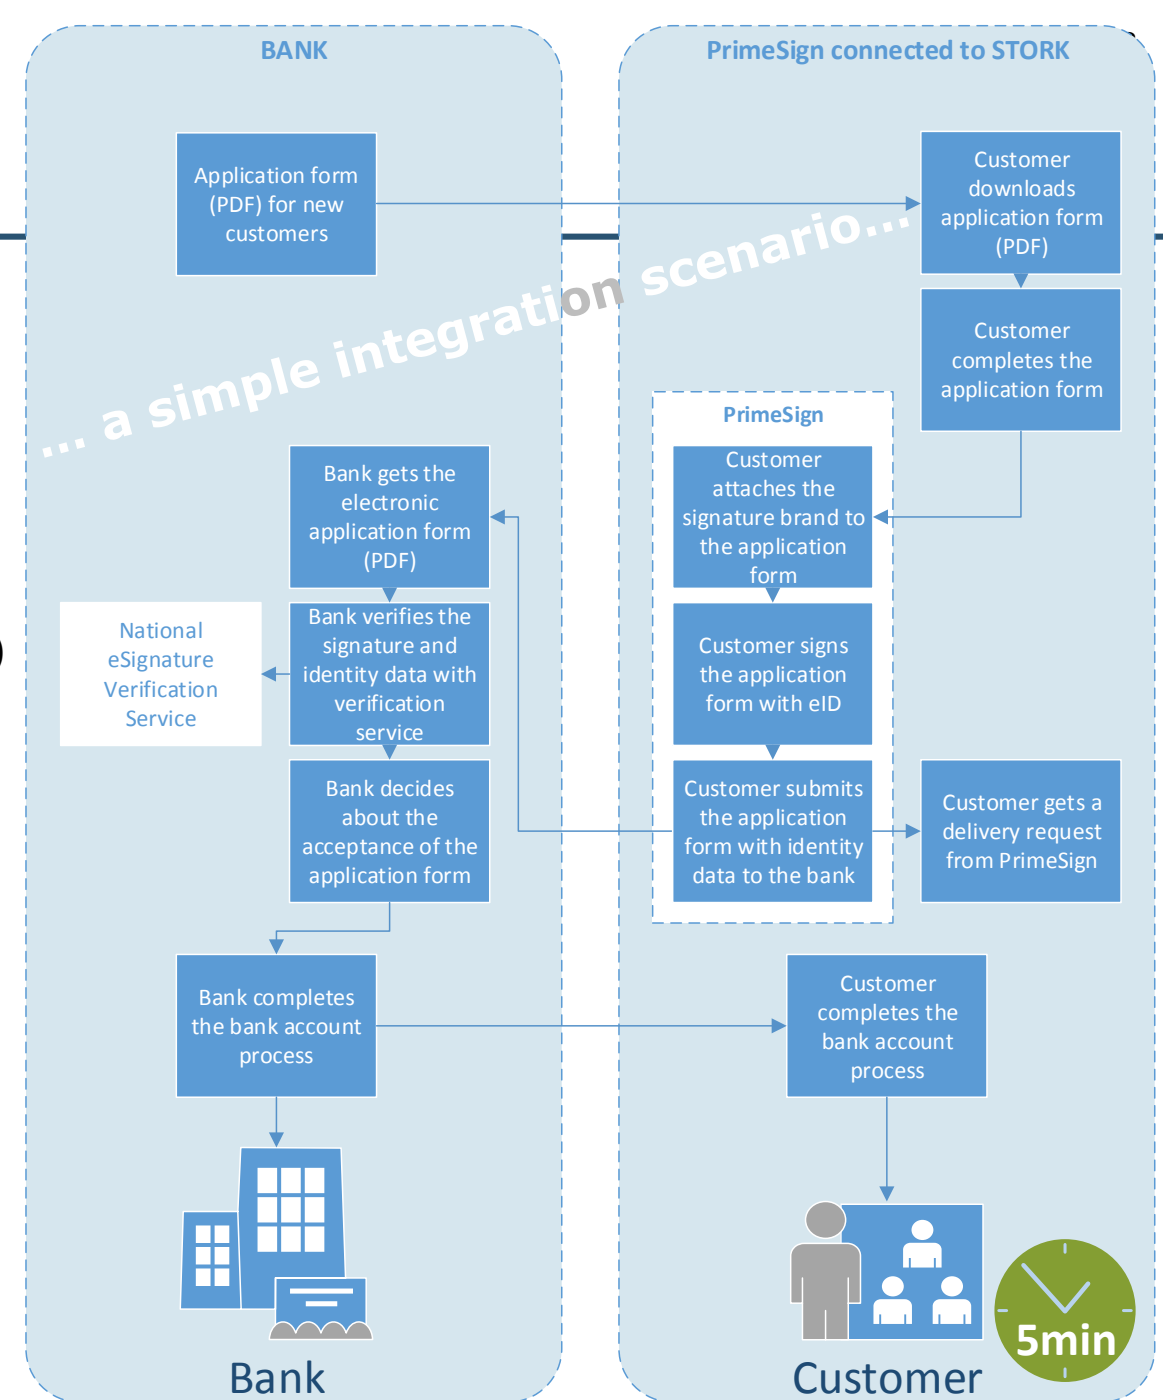

Advantages:

- pure **online and electronic**,
- **anytime and everywhere**,
- legally **binding**,
- also for **international customers** (at least in Austria)

STORK and PrimeSign supports many procedures:

- **Simple:** just take your existing PDF-forms
 - see example on the left
 - Bank can start immediately
- **Sophisticated:** PrimeSign with Online-Assistent (Forms)
 - STORK and PrimeSign is fully integrated in a multi-step dynamic online-procedure
