

LIST produce soluzioni innovative per l'industria finanziaria da oltre 25 anni.

LIST offre progettualità e soluzioni nelle aree:

- electronic markets (regolamentati, MTF, interni) e sistemi di settlement real time completamente integrati a mercati elettronici;
- trading systems evoluti per i mercati finanziari: algorithmic trading, trading assistito e quotazioni automatiche, order management systems, position keeping, tools analitici e strumenti per il pricing integrati;
- piattaforme di brokerage con garanzia di Best Execution e trasparenza pre-trade e post-trade
- sistemi di controllo delle attività di trading in modalità cloud in grado di monitorare tutti i flussi di dati in ottemperanza alle Direttive MiFID e MAD (Market Abuse) secondo i nuovi orientamenti dell'ESMA;
- sistemi integrati di Risk Management secondo i dettami di Basilea III e delle normative di Vigilanza (Rischio Operativo, General Compliance, Internal Audit, Business Continuity e Business Process Modeling).
